When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.
If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.
A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices, do not require to be lured back by catchpenny reductions.

London, 4th—Parliament met to-day, and the Hon. Sir Arthur W. Peel was elected Speaker.

Rome, 4th—General Lanza has been named Italian Ambassador in Berlin.

The Vatican has forbidden the Archbishop of Genoa to join in the reception of the King and Queen of Italy on their visit to the Italian-American Exhibition. The Italian press comment severely on this step.

The Italian Government has denied the statement of some papers that it lacked money to pay the coupons of the Debt in gold in December.

It says that not only has the Government gold enough, but it is already lodged in the vaults of the Treasury.

Tangiers, 4th—The Spaniards in Morocco are returning to Spain in consequence of the insecurity in the country, owing to the civil war.

Huelva, 4th.—The festivities yesterday were wound up with great splendour, and without any accident. At night the men-of-war turned their electric lights on the town and the bay: and this with, the illuminations on shore, produced a magic effect. Allegorical fireworks wound up the day.

The nations represented here by their war-ships are: Spain, United States, the Argentine Repubic, France, Italy, England, Portugal, Austria and Holland.

(*To the "Prensa"*.)

London, 3rd.—The *Times* predicts a lively debate on the Address. Gladstone will speak, and it will fall to the Parnellites to decide whether the discussion is to be prolonged or not.

Emperor William's yacht, the Meteor, won at Cowes. It is the same vessel that, bearing the name of Thistle, beat the Volunteer for the American Cup in 1887.

The *Daily News* says that Government will object to Michael Davitt taking his seat in Parliament, as, when he was elected, the sentence passed on him for political offences had not expired.

Berlin, 3rd.—The *Vossische Zeitung*, organ of the Liberal party, publishes to-day a sensational article headed "Away with Caprivi!" bitterly criticising his policy, and comparing Bismarck favourably with him. The resolute tone of the Press against Government of late has caused a deep impression in all classes, and Caprivi's resignation is considered certain.

The *Vossische Zeitung* also says that the Minister of the Interior, Herfurth, will shortly resign, owing to differences with the Finance Minister. Count Eulenburg will probably succeed him.

St. Petersburgh, 3rd.—A secret revolutionary printing-office has been discovered in Warsaw. Three hundred persons arrested.

The public and private schools have been closed till September, owing to the spreading of cholera.

Russian troops have occupied Pamira and the Hindu-Kush mountains, on the Afghan frontier.

Vienna, 4th.—Professor Suetbier has devised a plan to amalgamate all the monetary systems of the world. Its acceptance or rejection will depend on Great Britain.

THE GALICIA MAILS.

London, July 9th.

The elections are going steadily in favor of Gladstone and Home Rule. So far Lord Salisbury has 103 members returned, Mr. Gladstone 70, but the latter figure includes 24 seats won from the Conservatives, against 7 won by the latter. This leaves a net gain of 17 seats, counting 34 on a division, in favor of Gladstone, and if he win 40 seats more it will leave the two parties even. Among some well-known members who have lost their seats are, Mr. Ritchie, Justin McCarthy, Sexton, W. Redmond, Philip Stanhope, T. D. Sullivan, Richard Chamberlain, Sir Thomas Sutherland, Mr. Finlay, Harry Lawson, Charles Parker, Cuninghame Graham, Sir George Elliott, Mr. Broadhurst, Sir Horace Davey, Mr. Heneage and Mr. Buchanan. It is believed that Mr. Justin McCarthy and Mr. Sexton will be elected for some other constituencies.

The Gaikwar of Baroda with the Maharanee and their sons visited the Queen at Windsor Castle on Tuesday. The Gaikwar remained to dine with her Majesty.

The King of Roumania and the Prince of Hohenzollern took leave of the Queen on Friday, and on Monday they left on their return to Bucharest.

The Prince of Wales went to Portsmouth on Saturday and inspected the new cruiser Melampus, to the command of which his son, the Duke of York, has been appointed.

The King of Roumania on Saturday visited several of the London docks. On Sunday his Majesty paid a short visit to Lord Salisbury at Hatfield.

A dinner in celebration of the establishment of the Dominion of Canada was held on Saturday at the Hotel Windsor. Sir C. Tupper presided, and among those present were Lord Knutsford and many distinguished colonial personages.

The election contests in Ireland have been marked by very animated scenes. In many places fighting has been the result of strong language on either side, and some injuries have been sustained.

The tercentenary of Trinity College, Dublin, has been celebrated this week, and a large number of representatives of British, Colonial, and foreign learned societies have taken part in the proceedings. On Wednesday a considerable number of honorary degrees were conferred upon eminent persons.

The Tsar will return to Russia and take up his residence at Peterhof at the beginning of next week.

Reports from the interior of Russia continue unfavourable, and in view of the prospects of renewed scarcity, if not actual famine, dealers refuse, notwithstanding the sharp rise in prices, to sell their stores of cereals, expecting still higher prices in the future.

The Sultan and Court of Moroco are in a state of extreme disquietude as to French action in connexion with the Shereef of Wazan. News has lately been received at Court to the effect that the French Minister has now extended French protection to the powerful and lawless tribe of Masara, which has hitherto always been in revolt against the Sultan and in need of constant chastisement, but always devoted to the Shereef. This action literally amounts to the setting up of an 'imperium in imperio' in the very centre of the Sultan's kingdom, under French guidance. The Sultan has also learned that the French Government have sanctioned a monthly allowance of 20,000f. to the Shereef, who is as much beloved as the Sultan is disliked.

RECOLLECTIONS OF BUENOS AYRES.

Dear STANDARD.

Elysian Fields,
Aug. 4th 1892.

Will you permit me to contradict an absurd rumor in some journals of your city that I published a newspaper in Buenos Ayres.

I landed with my regiment (87th Foot) on June 28th 1807. My stay lasted only 12 days, and in that time we had something more active to accomplish than "meeting a want long felt" by turning editor.

On the morning of July 5th the regiment under my orders 87th Foot marched from the Miserere (now Plaza Once de Setiembre) to the Plaza de Toros (afterwards called the Retiro) which we took at the point of the bayonet. Whitelocke's plan failed at other points, and on the 6th Gen. Liniers attacked my position at the Retiro, when I beat him and took two of his field-pieces.

On the 7th July Whitelocke signed the capitulation at Riglos's Quinta, close to the Socorro church. It was wholly against my advice, since we had still 5,500 men, between those at the Retiro, Miserere and Quilmes; and we had just received news that a reinforcement of 2,000 men had arrived at Montevideo. We were 12 days embarking the troops after the capitulation.

There was no English newspaper in Buenos Ayres to my knowledge when we made our descent.

Yours truly.
Samuel Auchmuty,
Brigadier General.

Note. We can assure the gallant General that no person in Buenos Ayres who knows much about its history ever believed that he edited a newspaper here, although he was such an able leader that his columns would have commanded interest.

The first English newspaper in Argentina was the *Cosmopolite*, founded by Mr. Hallet, an American, in 1826. It was succeeded by the *British Packet*, founded by Mr. Love (an Englishman who had not a particle of hair, not even eyebrows), which lasted until 1858. There were, meantime, several papers in the interval, and the ages which they had at their demise were:—

American..........	1827	4 months
Anglo-Argentine.	1828	4 "
Cosmopolitan......	1831	2 years
Price-Current.....	1832	15 months
North Star......	1833	10 "
Herald..........	1853	6 "
Observer........	1856	4 "
Weekly Times..	1858	9 "

The *British Packet* was succeeded by the *Commercial Times*, and since then we have had:

	Born	Died
Com. Times.....	1858	1862
Argentine Citizen	1864	1866
South American...	1868	1869
Telegraph..........	1870	1872
Square	1871	1871
Times	1872	1874
Daily News......	1874	1874
Messenger.......,	1885	1886
Observer...........	1889	1890

The 4 existing English papers date as follows: *Standard*, May 1861, *Southern Cross*, 1874; *Herald*, 1876; *Argentine News*, 1890. The *Standard* was the first English *daily* paper printed in South America.

There have been several papers called *Times* in the River Plate: those of 1858 and 1872 in Buenos Ayres, that of Mr. Horne of Montevideo in 1877, and another in Rosario. There has never been but one *Standard*.

LATEST FROM MONTEVIDEO.

Wednesday.

Dr. José Pedro Ramirez has resigned the chairmanship of the Committee appointed for the organization of the fetes for the commemoration of the discovery of America. The reason of his withdrawal is that the funds voted for the fetes have been taken by the Government to pay the Opera Company subsidy.

Rumors are flying about that Dr. Herrera y Espinosa, Minister of Foreign Affairs, is about to resign. This is the second time that these rumors have cropped up. Dr. Ferteza is spoken of as a probable successor.

It is calculated that the merchants connected with the recent cases of smuggling will have to pay at least half a million to the Government.

Telegrams from the interior report clouds of locusts in several districts.

Ferrari's Opera Company make their debut to-morrow night in the Huguenots. This is not the Company subsidized by the Government.

It rained all day here and in the country-districts.

Stocks continue to fall.

Thursday Evening

During the month of July the Treasury handed over to the London and River Plate Bank the sum of $255,828 for the service on the Consolidated Debt. There is a balance still due of $2,370.

In view of the invasion of locusts the Minister of Fomento has telegraphed to the departamental authorities to devise prompt measures for destroying the insects.

It is reported that Mr. William Jordan will submit to the Government a project for a new port.

The works for the recovery of the treasure supposed to be in the wreck Nuestra Señora de Loreto have been suspended for the moment, owing to something having gone wrong in the machinery.

A joint-stock insurance company who have their offices in one of the principal streets, closed their doors yesterday. It appears that for some time past the concern was in a bad way.

A police employee has disappeared with a considerable sum of money.

ENGLISH LITERARY SOCIETY.

In spite of the threatening aspec of the weather, the Amateur dramatic entertainment given by this active society in the La France Hall was largely attended and, under the direction of Professor William Martin, proved a brilliant success. The hall was well filled, and the enthusiasm of the audience shewed how keenly the entertainment was appreciated. The first thing in the programme was a gavotte, beautifully rendered by the orchestra under the direction of Mr. H. G. Welby, professor of music in the Lomas Academy and organist of the Scotch Church. The orchestra was pronounced first-class, and we feel much pleasure in giving the names of the instrumentalists:—1st violins, Mrs. Baugh, Mr. E. Boas, Mr. H. A. Still, R Agar—2nd violins, Mr. D King, Mr. H King, Mr. J Roberts, Mr. E T G Kinch—Violincello, Mr. H C Thompson—Flute Mr. Stirling—Clarionet Mr. J W Colquhoun—Cornet Mr. Esplin—Drum Mr. W H Krabbe—Pianoforte, Mrs. Hun—Conductor, Mr. H G Welby.

The gavotte was followed by a trio, entitled "Opera sans paroles" (Beriot), played by Messrs. F. M. Still, H. C. Thompson and F E Barnes, organist of St. John's.

Mr. Harry Scott sang "I'm off to Philadelphia in the Morning," so well that he was encored, whereupon he sang "Jolly Jenkins." He was loudly applauded.

A "Danse Normande" splendidly played by the orchestra brought the first part of the programme to a close.

After an interval of a quarter of an hour, the orchestra began the overture of Cox and Box. Mr. C. Mackern and Mr. A. Boyd were very good. Mr. F. Woolley, as usual, was "hors ligne.", He is certainly one of the cleverest of our amateur performers.

On the conclusion of this well-known farce, the audience withdrew, well satisfied with the evening's entertainment, and loud in their praises of the English Literary Society.

PROVINCIAL NEWS.

We note in one of our numerous exchanges from up country an interesting account of Pergamino, town and district. The latter covers an area of 220 square leagues, and the former covers 200 blocks or 'manzanas'. The streets are well paved and well kept. There are some nice villas in the neighborhood of the town. The population of the district is set down at 30,000 and that of the town at 10,000. Although cattle-farming is the principal industry, agriculture is making great strides. About two leagues from the town there is an agricultural settlement called Grondina, which has two square leagues of land under cultivation. Wheat last year did splendidly, but the maize crop, owing to a number of unforeseen circumstances, was lost. The Pergamino Municipality is an active and energetic corporation. We note among its members Mr William Mooney, a leading estanciero, who has done a good deal for the district as well as the town. The revenue of the Municipality is over $68,000. The police force is a well organised body, and distinguishes itself by its activity. The commissary and his men are held in esteem by the towns people. There are 37 police a rather small number, but crimes are rare in Pergamino and the people are of a most pacific disposition. The cases of 'drunk and disorderly' are not so numerous as in other towns of the same importance.

A 'wire' from Santiago del Estero states that young Arrizola who, by publishing all the details of the murder of his father, was the indirect cause of the row betwee the brothers Coronel and Gomez, was arrested and compelled to sign a statement denying any connexion with the publication in question. He was then released. He immediately repaired to the office of a local independent paper and related what had occurred. There must be something rotten in Santiago when such means are resorted to for the purpose of concealing the circumstances of an outrage committed a few months ago.

Telegrams from Catamarca state that the political condition of that province is deplorable. 'Painful incidents' are of every-day occurrence, that is, someone gets his head broken or his 'claret' tapped, every day. Daggers are even occasionally drawn, but fortunately so far not used.

We note in a Rosario exchange that the Santa Fé Government wants to 'dorar la pildora' and now proposes to devote the proceeds of that iniquitous and illegal grain tax towards defraying the cost of education. And what, may we ask, will the Government do with the sum provided by the Budget for the purpose of education? This move on the part of the Santa Fé Government is evidently meant to throw dust in the eyes of the tax-payers, but no matter what the uses to which the grain tax may be put, its illegality is unquestionable.

Governor Hernandez of Entre-Rios has returned from Rosario de la Frontera, whither he had gone to repair his health, broken down by the weighty cares of office. He returns another man, but the same governor, so that there will not be any change in his enlightened policy.

THE BANK QUESTION.

(*From the "M. V. Times".*)

In the Message presented to the Chambers on August 29, 1891, the Executive categorically declared that *in a few days* it would be able to present to the Chambers *definite* propositions for the establishment of a new Bank, about which it added various bombastic prophecies. For that purpose the provisional moratorium granted the National Bank on its second collapse in the preceding July was indefinitely extended and the Chambers granted the Executive 30 days for the presentation of its plans. The 30 days did not prove sufficient, however, and had to be extended, and it was not until December 7 that they saw the light. The Executive then stated that it had "well forwarded" negotiations for the establishment of the new Bank. For all that, and urgent as it was pretended the business was, it was not until March 24 that the Bill authorising the E.P. to contract for the establishment of the new Bank was finally sanctioned, and even then it appeared that the definite contract yet had to be arranged. For this the arrival of Mr. Noetzlin was awaited. He came in the end of May, and after a lot more of playing fast and loose, during which the official mouthpiece the *Nacion* amused its readers by its reiteration of the phrase "The Bank will come," the whole affair collapsed and the Bank did not come.

The narrative supplied by Government only opens last January, and the reader is left to exercise his imagination with regard to the preceding negotiations which had extended as far back as the inception of the Conversion Scheme, some six months previous. But, in any case, the very positive protestations of Government were not supported by the facts, as shown in the information itself has now supplied.

The difficulty which wrecked the business, according to Government showing, was the clause respecting the nomination of the President of the Bank, and the project of the publication of the interesting appendix seems to have been, not to give the public an insight into the truth so much as to throw upon local capitalists the odium of having been the cause of the failure, and consequently of the renewed crisis. We do not think this mean attempt will succeed; on the contrary, the local capitalists, as represented by the Commercial Bank, deserve all applause for their firmness, and we unhesitatingly declare that in their resistance to undue Government interference in banking matters, they have the support of the market as thoroughly as in their resistance to inconvertible paper money. The one is hardly less a calamity than the other.

It was Government interference that wrecked the old National Bank, that aggravated the crisis, that caused the failure of the first attempt to resuscitate the National Bank, and that has since filled the market with distrust. It is the same cause that now, according to its own showing, has brought about the collapse of the latest negotiations on which it built so many hopes. Its very obstinacy in the matter showed that its intentions were not straight-forward, and that it wanted the power of interference for illegitimate purposes, for if it had been merely the question of saving the "national dignity" it would have accepted the suggested compromise of a President with limited authority. And still it has not learnt the leason. It pretends that it desires above all things a new Bank as the most important step towards conquering the crisis, and yet it obstinately imposes an obstacle fatal to the establishment of such a Bank. It protests one thing and does another, and yet it is astonished that the market distrusts it. Such want of sincerity and seriousness condemn themselves.

It is the height of folly for Government to complain of the want of confidence when every fresh act and new revelation show how untrustworthy it is. If it wants to reform the situation let it begin by reforming itself, which is the most to blame for the situation.

OTTO GAS ENGINE

The following should be of interest to Estancieros here:

"At one of the Annual Shows of the National Agricultural Society of Victoria, held in Melbourne, Australia, the principal attraction among machinery was the exhibit of the Wolseley Sheep Shearing Machines, driven by a 2hp. "Otto" Silent Gas Engine of Messrs Crossley's latest type; the gas being made on the spot from tallow in a Mansfield Oil Gas Making Apparatus, designed to give 40 lights each to burn continuously five hours. The "Otto" Engine was also used to drive three Silent Sausage Cutting Machines. All the work was done most successfully, being the centre of attraction to the wealthy sheep station owners of Australia, to whom it was demonstrated that the fat which they, as a rule, find an inconvenience in the interior country, could be used to drive their Sheep Shearing Machines, cut their fodder, wood, and meat, pump water, and ventilate and illuminate their residences.

Any kind of oil, Mineral, Vegetable, or animal, also all kinds of fat or fatty refuse, can be utilized and converted into gas in Mansfield's Apparatus. No skilled attendance is required, and the first cost is very moderate.

Messrs Eigendorf and Garrett 367 San Martin (who are also agents for Crossley's Gas Engines) will be happy to give further particulars to any one interested.

RAILWAY ITEMS.

In answer to a subscriber who requests us to state what percentage of expenditure is allowed by contract to the guaranteed railways, we append the following table, which we have taken from official sources—

Railway.	Guarantee.	Cost per kil.	Expenditure.
	P.cent.	$gold.	P.cent
East Argentine.	7	—	—
Pacific.........	7	20,139	50
Arg. Gt. West..	7	20,139	50
Central Cordoba (C. Nor. Sec.)	5	—	55
North East Arg.	6	30,500	50
North West Arg.	5	22,500	55
V. Maria-Rufino	6	18,000	55
B. Blanca North-Western	5	20,000	55
Transandine....	7	30,673	55
San Cristobal - Tucuman	5	18,500	55

We are not in a position to state what kilometric cost was fixed for the purposes of the East Argentine guarantee, and, in regard to the expenditure, we believe that, through a singular oversight, no percentage was fixed. The guarantee of 5 % for the Central Cordoba (Central Northern Section) holds good on a capital of $21,000,000 gold.

The Committee appointed to liquidate the accounts pending between the Government and Messrs. Lucas Gonzales and Co., have brought their labors to a close. The Engineers' Department now ask Government to instruct the Committee to return all the documents borrowed from that Department.

We learn that the other day a splendid locomotive was bought here for $1,200. It was brought out for contractors who were compelled by the crisis to stop their works and sell off the rolling-stock they had on hand.

EDITOR'S TABLE.

The sun was warmly welcomed yesterday on and off Change, on his reappearance, looking a couple of million years younger, after his week's vacation. Together with his partners, Messrs. Wind & Co., he dried up the streets and made everybody happy.

Nothing very fresh from Montevideo yesterday, except the appearance of Locusts in Flores department, and the disappearance of an "alcaide" with a lot of cash. Some pessimistic people say that the River Plate is in for a bad Locust year when the sun gets hotter.

The Senators of the Nation sat yester day. A Message from the Executive Power and a petition from that seedy railway the Argentine Great Western, asking to be exempted from lodging 50 per cent of its receipts, and to be paid the guarantee in full, was entered, and sent to Committee. Another Message and the petition of the Rural Society for $500,000 in exchange for their shanties at Palermo was also sent to Committee. Several Bills already approved by the Deputies were received. The voting for the appointment of a Bishop in Salta resulted in 18 votes for Dr. Padilla, 10 for Dr. Tagle, and 15 for Dr. Mercado. The Committees of Constitution and Finance were requested to give their whole minds to Senator Igarzabal's Bill, and the House rose at 3.30.

Government is preparing a Message to Congress about the proposal of Madero and Sons to build a graving dock at the northern end of the port, to cost a round million of shinplasters.

The hatched, matched and despatched returns yesterday were—

Births	71
Marriages	7

The mail bags for Europe close at 11 a. m. to-day.

We had a visit yesterday from the youthful pianist prodigy, Master Ernesto Drangosch, aged ten years, who is going on a tour to Europe and will give his farewell concert in the Operai Hall on Monday next, assisted by Madame Kunz and Mr. E. Collin. The programme is splendid, containing fifteen numbers.

We give in another column a list of the new members of Parliament elected up to July 8th. We are glad to see amongst them our old friend and subscriber Mr. Houston, the great steamer owner, and who is one of the largest holders of Argentine railway shares in England, and a great friend of this country, which he visited in 1887. He was returned for West Toxteth by the large majority of 1,125. The only thing we are sorry for is that Mr. Houston is a Conservative, instead of joining the G. O. M. to get Home Rule for Ireland.

The strike of the Madrid stock-brokers last month was the first thing of the kind on record since Bolsas were invented. Now the stock-broking Dons have got a gold premium to swell their commissions, so we suppose they will not strike again. Our London friend *Money* says:—

"A portion of the mantle of Argentina has apparently been bequeathed to Spain, and the "gold premium at Madrid" is now a recognised quotation. The stock-brokers in that exalted capital may strike against taxation all they know, but it will be of no avail for them to refuse to recognise the gold premium. "Bears" of Spanish Fours have had some heavy differences to pay as well as a 1 per cent. dividend; but it is coming back to them gradually, and it would never surprise anyone were a four-horse riot to break out which will knock a hole in Spanish big enough for any "bear" to crawl through."

A good plain cook—plain in more ways than one, as she is "bastante fea"—went to the Head Police Office yesterday, to start an action against her master for breach of promise of marriage. She had a long chat with one of the Jueces de Instruccion on the interesting topic.

We beg to call attention to the bi-weekly forniture auctions of Messrs R. Miro and Co. announced in our advertisement columns.

The matinee which should have taken place last Sunday in Belgrano for the benefit of the families of the unfortunate Rosales crew will take place on Sunday next. We will publish the programme in our next.

Mr. Icely, author of the Railway Guide, has kindly compiled a complete railway map of the River Plate countries for our New Handbook, which we hope to publish on the 8th prox. Mr. Icely is the best authority on railway matters in Argentina, and we commend his useful Guide to the public.

The Rural Society is not quite so bad as people thought on Wednesday. It now declares that it does not want Government to pay its debts, but merely to give it half a millions for the ramshackle buildings it owns at Palermo. The Government has no cash for investment in white elephants. Try the London market.

We see by the election returns that many well-known members have lost their seats, amongst them Mr. Sexton, by far the best speaker in the House, the Grand Old Man excepted. Two notorious bores have also been turned out: Mr. Cunninghame Graham, commonly called the member for Entre-Rios, as he had an estancia there, and Mr. William Redmond. No doubt, amongst the new members there will be a full supply of the bore fraternity. They never fail, in or out of Parliament.

In La Plata the other night the inhabitants got a terrific fright. A rocket factory took fire, and the banging and fizzing of its stock in trade so closely resembled rifle-firing and the whiz of shells that the people were cock-sure that the long-expected revolution had at last broken out.

The *Prensa's* crusade against the Land and Colonies Office is getting very hot indeed, and a 'sumario' is inevitable.

Government is showing signs of relenting in 're' the £10,000 a month fine for the Bateman Legacy. The Attorney General thinks that the pound of flesh should be cut off as regularly as the months come round.

Just listen to our influential relative. Uncle Sam crowing over what he eats: "The United States has given to Europe quite as much as Europe has given to us in the way of new and desirable dishes and food staples. Through us they learned over there what it was to eat succotash and southern cornbread as well as broiled beefsteak. Until within a very few years the American traveled from one end of that continent to the other without encountering a beefsteak such as we know it in the United States. Likewise we have bestowed on the nations there pumpkin pie, squash pie and our kind of fruit pies, which are as much ahead of their fruit pies as a golden pippin is ahead of a wild crab apple. Now we heap our blessings upon them by sending to them the tomato, canned and fresh, which they cannot get enough of. They indeed knew about the tomato, but only as an ornamental growth. We caught it and civilized it and made a food delicacy of it." What about that delicacy (for ostriches) pork and beans, dear Uncle?

On Wednesday night, at "the witching hour when graves do yawn," and while the good citizens of Mendoza were snoaring their loudest, a rousing shock of earthquake was felt, and in five seconds the streets and Plazas were filled with half dressed people in a state of mortal terror. They remained for an hour and a half shivering in the cold night air, and then, as no further shock was felt, went back to bed.

Of course, Emperor William's yacht won on her merits at Cowes Regatta! but the first impression is that she did not, as there are a lot of courtiers in the R. Y. S.

We have to thank Messrs. Mackern and Shine and Galli Hermanos for late English papers. The first firm sent us also *Black and White* and the latter the *Illustrated London News*, both full of election intelligence and pictures. *B. & W.* (not brandy and water) has a splendid cut of the Argentine Gauchos astonishing the Cockneys by riding buck-jumpers and throwing the "bolas". One wild "potro" is in the air, hoofs upwards, refusing to let his rider mount him. There is a grand furious gallop of the Gauchos in line, waving their "rebenques," with their leader Martinez in front.

Glanders—"It is said that paper can be used effectively in keeping a person warm." Gazlay—"That is very true. I remember a thirty-day note of mine once kept me in a sweat for a month."

Mr. Maximum Wilmouski sent us a polite circular yesterday announcing that he has opened a book-store in Tucuman. We'll remember him, on our next visit to the capital of the Garden of the Republic.

The *M. V. S.* says:—

"We understand there is no truth in the rumour that the liquidators of a certain Bank have returned two thirds of their salaries to rank as assets of the Bank, considering the work they have done as sufficiently well paid with the remainder. Such things only happen in fairy tales."

There seems to be something brewing in Catamarca, where the authorities are all at logger heads with themselves and everybody else. The cause of this snappy state of things is probably the Influenza Demon, who is at present on a pleasure trip up there.

"Is your father in favor of patronizing home industry?" asked a sister of Freddy. "I think he is, judging by the way he makes me work," replied Freddy.

Five to one is offered on the appearance of another English paper before long. We'd like to see a dozen more.

The people will be driven mad with taxation. The Lord Mayor is now engaged in making out the City Budget, and there is a doleful rumour that he intends to propose a crushing pile of new taxes. This is the eternal municipal, provincial and national tune, year in year out. It's all the fault of the citizens themselves, who fail to inscribe their names as voters and put the right men in the Town Council.

A worthy gentleman named Badano, who has got a fat concession at La Plata in connection with the "limpieza" of shipping, is giving so much trouble to skippers and agents that they have told the Government they cannot stand it any longer. Nor should they.

The Triple Alliance of the Rowing Clubs will come to the fore with a Regatta on Sunday next in Dock Three, for the benefit of the Rosales Fund. The four foreign men of war in the Dock have promised to do their best to give the "fiesta" a good push.

There is a strong probability of the old Custom House being touched up and turned into a G. P. O. It won't be as convenient for the "respetable publico" as the quondam residence of the Provincial Government.

Another great invention is announced as follows by a New York paper:—

"General Edward W. Serrell has invented a system of electrical coast and harbor defences which is noteworthy. The device is so arranged that if a ship crosses the electrical path at the entrance of a harbor it will at once receive a tremendous blow, which will shiver it to atoms. The blow will be equal to 50,000 tons, and not much is known about it except that it will come from overhead, in a flash as of lightning. This is very fine for harbor defences, and we hope it is true. All the same, in our judgment, the person who can abolish mosquitoes will be more of a benefactor of his race."

The newest thing mentioned is the 'hygienic cube', a new kind of vasura box fitted in the foot-paths, and to be emptied every morning by the Limpieza men, thus saving servants the trouble of getting up too early. Our prophetic soul tells us that the 'hygienic cube' will not catch on, as it would impart a permanent perfume to the flag-ways.

Referring to the recent slippery little transaction on the other side of the river, our daily brother of the pen in Montevideo says:—

"Just before the decree demonetising the minor notes was issued, Government took advantage to pay administrative accounts for some $100,000 in these notes! Such a piece of chicanery supplies its own comment."

A little girl was asked—"Who made you?" She held up her apron, saying "God made me that length, and I growed the rest myself.".

The *Siglo* of Montevideo has let a big and ugly cat out of the bag in reference to the job of giving $12,009 to an Italian opera company at a moment when the Government of Uruguay is in such financial straits. Our contemporary reveals the startling fact that a nephew of President Herrera is a partner of the empresario who got the cash. When will the next Presidential election in Uruguay take place?

ON 'CHANGE.

Thursday, Aug. 4th 1892.

A sharp turn took place in the gold market this morning and upset the calculations of the shrewdest. The snap in the speculation was decisive and prices rattled down as fast as they had risen. The sudden change was unexpected, as a heavy mail goes to-morrow, and gold shipments are again talked of in view of the utter dead-lock in exchange. Only yesterday the ounce was quoted at $54; this morning it closed weak at $53.30, a difference of seventy cents in the premium. These violent ups and downs of the circulating medium perplex the market and paralyse business in the plazas, as there can be no reliable basis for operations, and speculation enters largely into every calculation.

Twelve thousand ounces changed hands at the first ring; the price opened at $53.70, fell to $53.20, and closed at $53.30, say 227.49% premium. Seven hundred sovereigns were sold; the price opened at $16.62 and closed at $16.53, say 228% premium. The market closed with a flat tendency.

Dame Rumor was silent to-day with regard to politics and the recent reports bandied about the hall are falling into disrepute. It appears that the Senate has summoned General Roca from Rosario de la Frontera to preside over the scrutiny of the Presidential election; thus there is no truth in the report that the General comes down to father the bill providing for the reduction of the capital of the Banco de la Nacion.

Patriotic Bonds ruled very dull all morning, but prices were steady at 71.90 to 72. Internal Bonds were comparatively active and prices were buoyant; a few thousand changed hands for cash at 66.60 to 66.80. About one hundred thousand were sold for the end of the month, the price closing firm at 67.

Municipal Lottery Bonds were posted up at 61 for cash firm. There is evidently some mistake about the name of this stock, for the Municipal Lottery Bond is now a thing of the past although the Bolsa black board clings to the old name. The quotation in reality is for the new stock of the Municipality, known in the hall as Municipal Consols. These Consols have been issued up to an amount of $25,000,000 paid out by the Municipality at 80% of their face value. Though a Municipal loan, it has passed into the hands of the Credito Publico Nasional: guaranteed by the revenue of Contribucion Directa and License taxes, the new stock can present plausible features to the investing market. Furthermore, house owners and business men can pay the Contribucion Directa and Patente taxes in the coupons of these bonds, an advantage not to overlooked in the investment. There are many and heavy buyers at present of these so-called Municipal Consols.

A few shares of the Old Gas Company were sold for to-morrow at 85. Catalinas Wharves Shares were very active; about four thousand were sold for cash and to morrow at 9.90 and 10. National Cedulas E were quoted at 85. La Plata Cedulas were a shade weaker than yesterday closing at 29.60 and 29.70 all round.

Cheques of the Provincial Bank were done this morning at 40½% discount; those of the National Bank at 21% discount. Bonos of the La Plata Mortgage Bank improved, changing hands at 18½% of their face value.

"Letras" or Treasury Bills of the Government of Buenos Ayres are quoted at 50%; buyers will not offer more than 47. This is a sad plight for the Queen Province of the Confederation. We remember the days when the old Provincial Government House stood in the Calle Moreno and the bills of the Provincial Treasury were quoted at better rates than those of the National Government: in those days no one dreamt of La Plata.

Exchange ruled weak and very dull this morning. Few drawers, and few takers. Discounts continued easy.

Immediately after the first ring, Mr. Horatius Varela, the well-known money broker, ascended the rostrum, addressed the brokers, and proceeded to knock down shares of the Bolsa Building Company. One thousand shares were offered to the public; this heavy lot comprises the reserve of the Bolsa which was given away the other day to the Rosales fund to help the Government to purchase another torpedo catcher to replace the lost Rosales. The hall was crowded with people anxious to see the results of the sale. After a deal of trouble and shouting, Mr. Varela managed to sell 100 shares, in lots of 50 each, at 130. The price was disappointing, as last sales were quoted at 150, and in view of the patriotic object of the sale many anticipated a stiff rise in the stock. Disheartened by these low prices, Mr. Varela decided to suspend the sale. Thus nine hundred shares remain over and will be probably sold privately. We have no doubt that the stock can be easily moved off in small lots and slowly at 50% premium, for it is one of the few good investments in this market at present.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Our colleague *La Prensa* pays a high compliment to Dr. Carlos Lix Klett, the indefatigable Inspector General of the Argentine Committee of the Chicago Exhibition. Our colleague recalls the many valuable services of Mr. Lix Klett in the cause of the market here and of the country abroad, especially in connection with the valuable Produce Museum of the Once and the Paris exhibition in 1889. Mr. Charles Lix Klett is at present devoting his energy to the Chicago Exhibition and our colleague calls upon all interested in the produce business of this country to support his patriotic efforts. The compliment is well deserved, for few men have worked with more perseverance and patriotism than the popular Inspector General.

Circulars have been sent round announcing that the sleeping partner, Don Bernardo Meyer, has withdrawn from the great wine-firm of Messrs. Wipperling, Kirchhofer and Co. The firm continues under the present style with

Messrs. Wipperling and Kirchhofer, and Mrs. M. Jenker de Hansen, sleeping partner.

At the meeting of the East Argentine Railway Company in London the shareholders passed a resolution expressing their dissatisfaction at the manner in which the Argentine Government had dealt with the company's guarantee by paying the amount, less various deductions which the company did not admit, in bonds of the Funding Loan instead of sterling as required by the company's concession.

The Land Office has rented to Don Diego Harris one thousand hectares in the valley of the Rio Negro, half of lot No. 5, fraction G, Section VI. The lease is for six years at the rate of 120$m/n per month.

The steamer Porto Alegre has put off her departure till next Monday.

The Sud America left Genoa yesterday for the Plate with 300 passengers and 1250 tons of cargo.

Engineer Barabino has sent to the department of National Engineers an exhaustive report on the port of Santa Fé and the damage done recently by floods to the embankment. Mr. Barabino opines that with little expense the damage in question can be repaired, but that the construction of a port by changing the bed of the Santa Fe river will be a work of considerable outlay. Under present circumstances this Santa Fe port must stand over for better times.

Telegrams from Montevideo announce a fresh fall in Cedulas A: affairs are marching fast on the other side.

The Houlder steamer Zarate, from London and Liverpool, brings five passengers, 350 tons cargo for Montevideo, 1500 tons for Buenos Ayres, 400 tons for Rosario, 45 tons for La Plata, and 106 tons for Bahia Blanca.

The following gentlemen form the scientific party that leave to explore the Chaco, Corrientes, Misiones and Formosa, and make collections of the fauna and flora for the Chicago Exhibition:—

Gustav Niederlein, naturalist, chief of the Expedition.
Theodor Schumann, secretary and treasurer.
Augusto Balterini, artist, painter.
Alex. N. Campbell-Sohuston, sportsman.
Baron Juan de Hahn, reports on Cattle industry.
Arnoldi Bolsi, engineer.
T. T. Vollenweider, to make timber collections.
E. C. Moody, photographer.

Louis Boccard, naturalist. Several other gentlemen will join the party 'en route.' They start on Sunday in the small Government steamer Resguardo, which the President of the Republic has placed at the disposal of the party: the little steamer has coal and the party have provisions for a journey of three months. Valuable results may be expected from this expedition under the able leadership of Mr. Niederlein, and some interesting collections can be made in the Chaco and Misiones for the Chicago Exhibition. Not the least remarkable exhibit will be the photograph, on a large scale, of the famous Yguazú falls: Mr. A. Ballerini will put the falls on canvas, and his artistic abilities are well known: these falls have the reputation of being the most beautiful in the world. The waters of the great Yguazu fall at the Salto de la Victoria (so called owing to the difficulty of its access) in one hundred cataracts over an aggregate width of 6000 feet to a depth of 200 feet, thus beating the famous Niagara in depth of fall, not to mention the superiority of the surroundings in a sub tropical climate. We wish Dr. Niederlein and his party pleasant adventures, and have much pleasure in assuring our readers that from time to time we shall publish correspondence regarding the doings of the explorers.

The South American Banknote Company have sent a bill to the Minister of Finance for 6,268$m/n for printing of postage stamps during the month of July.

The architect of the Government House has sent in a bill for 9,988$m/n for work done in the third section of the building last month.

The representative of Messrs. Bateman, Parsons and Bateman has sent a note to the National Government stating that the delays in the official inspection, for account of the Government, of materials in London is declared by the leasing company to be the cause of the delay in the completion of the City Improvement Works, which that company are bound to finish within a certain date, which has lapsed, under penalty of fine set forward in the contract. Messrs. Bateman, Parsons and Bateman who have charge of the London inspection of materials for the City Improvement Works, beg to deny the charge of the leasing company and state that they have not been the cause of any delay. Messrs. Bateman call attention to the fact that this is not the first time that the leasing company has laid hold of false charges to get out of difficulties, and that all such charges have always been refuted. Last, not least, Messrs Bateman, Parsons and Bateman request the Government to draw up a note or list of the charges made by the ex-leasing company, in order to answer same officially.

The gold market continued weak at the second ring. The market was top-heavy, and appeared to sink under its own weight. Nine thousand ounces were sold for to-morrow: the price opened at $53 30, fell to $53.10, and closed at $53.20, say 226.88% premium. Nothing was done in sovereigns. Patriotic and Internal Bonds were dull and stationary at the morning rates. Municipal Consols were firm at 61. Catalinas hardened and closed steady at 10. A small lot of shares of the Banco de Italia y Rio de la Plata was quoted on the black board at 82 gold. La Plata Cedulas showed no improvement.

Doctor Garcia Merou, Procurador del Tesoro, is drawing up a lengthy note to the Government on the Concession of 58,000 metres of ground in the port works to Messrs Carret, Babacini and Company. This concession is supposed to be worth a million dollars, and Dr. Garcia Merou requests the Government to annul it.

The river was so low in the Boca yesterday that the ships could not come in; there is a large three-masted American schooner, with close on a million feet of lumber consigned to Messrs Turner and Company, waiting to enter. To judge by the arrivals of pine and the advices of shipments on the way, the crisis in the building market must be over, although there are still to be seen in many streets in town unfinished houses, the construction stopped for want of funds to go on. We apprehend that it will take many years before the building trade of this city will be as brisk as in the year 1889.

The London shareholders of the Rosario Railway will be glad to hear that the branch of their line from San Isidro to San Fernando is finished, and the Government has authorized it to be opened to public traffic. We suppose that in summer this branch will do a good business, and particularly when it is finished to the Tigre; but it was an error from the beginning for the Rosario railway to have had anything to do with this line; and it will take many years for the company to recover the loss, which through want of judgment on the part of the local board here, it has incurred in this business

Everyone to-day wants to buy cheap camp; our office might be taken for a land broker's office at times, such is the number of persons calling and enquiring for cheap estancia lands. There are still some bargains going, but as a rule lands to-day are 25 per cent higher in price than a few months ago. Some large lots of land in the Pampa Central are offering, and the price, 6,000$m/n per league, does not seem dear, but the rub is to go out and see the land. We know of one party who has 95 square leagues about 40 leagues West of Bahia Blanca and near the Colorado; the land is good for sheep and the squatters on it are all doing well. The owner wants to rent or sell, should this meet the eye of a party with sufficient money to buy.

Coal cargoes still keep arriving very fast; it would seem as if there was nothing else to ship to the Plate from England than coal, and these steamers come out here on charter to load maize, which it is about as hard to buy as the coal is to sell.

Messrs Whipperling and Kirchoffer have obtained from the Government a patente or privilege for two marks of their Port wine; they might have saved themselves the trouble, for all the world knows they have a speciality in Port wines; there is no Port in the market to rival Meyer's Port, of which they are the sole agents and importers.

Our old friend Mr. Servando Gomez, of San Nicolas, has astonished the market by his table of exports from that port during last month. To judge by this table San Nicolas must be going ahead so fast that it will soon rival Rosario. We give the table at foot, so that those interested in our trade may study it and weigh well the labour and capital employed in such heavy shipments. The following is the table:—

"Steamship Olinda with 1,000 bags maize, s.s. Talavera do 29,690, pilot-boat Rosa Edinge do 2,500, s.s. Freda do 3,570, s.s. Girdleness do 27,993, s.s. Oenotria do 27,000, s.s La France do 5,556, chata Alsina do 5,420, pilot-boat Argentina do 8,100, s.s. Manin with 8,270 bags wheat and 18,720 bags maize, s.s. County Down do 22,190, s.s. Branham do 15,950, s.s. Falkenburg do 2,000, pilot-boat Laurentina with 620 bags of linseed, pilot-boat Nuevo Feliz 2º 500 bags wheat, s.s. Uruguay 12,380 bags maize, s.s. Ardberg do 27,250 s.s. Brenda do 7,343, pilot-boat Colonia Ocampo do 3,150, pilot-boat Maria Ramos do 3,850, s.s. Pine Branch do 15,128, s.s. Wartburg 560 bags linseed and 5,001 bags maize, bark Anglo Norman do 16,373, s.s. Roddam do 26,870, s.s. Highland Mary do 6,460, s.s Petrópolis do 8.000, s.s. Nethergate do 26,010, schr. Celedonia 2,230 bags linseed, s.s. Chingford 7,850 bags maize, s.s. Jane Radcliffe do 6,887, s.s. Colombie do. 14,662." There are many men on the Bolsa who remember San Nicolas a small provincial town that did not ship in a whole year what they now do in a single day.

A rather important case has just been decided by the courts here which must interest this market. Mr Felipe Schwarz sued the secretary of the Chilian Legation, Mr Saratea Pinto for 100 dollars, gold, his fees for inspecting the machinery of the Chilian iron clad Presidente Irrázuriz which went under repairs at Harley and Co's, Montevideo. The supreme court has decided it has no jurisdiction in suits against parties belonging to foreign legations, unless those parties renounce their privileges; the case is a rather hard one for our friend Mr. Schwarz, but we suppose if he sends his claim to the Chilian government it will be paid.

Another important case just decided by the Supreme Court is that of Emilio Otero against the Government of Entre-Rios for 28,838 dollars which the province has been ordered to pay up at once and execution granted. But how to execute a province is the question. Bills are protested, judgments granted and even executions ordered, but we have never yet seen a province sold out.

The plans and project for making a new port at Concordia, Entre Rios, with a mole, custom house deposits and port captain's offices have been sent by the Department of Engineers back to the Minister approved, with certain modifications. Señores Lozea and Co. are the concessionaires, and it seems every-way probable if they can raise the money that the works will be begun. Concordia is a fine rising town with a trade of its own and a railway of its own, and doubtless ought to have a port of its own. The very remarkable thing about Concordia is that Salto, right opposite on the Uruguay, which has no paper money to afflict it, nothing but gold and silver, and has two railways of its own, is a dead-and-alive place, whilst Concordia, that has all the troubles inherent to paper money, has twice the movement and stir of Salto.

The department of Engineers has directed a note to the Minister on the subject of the port works of Rosario, of which Sr. Canals is concessionaire, advising the Government of the necessity of protecting their own moles and compelling the vessels to discharge at the national moles instead of the private ones. It looks to us as if they have got too many moles in Rosario for its trade which is the old story of too many custom house deposits in Buenos Aires, which brought down the Catalinas to their present sad plight. The National moles in Rosario must of course be protected, but the mistake was building so many moles.

We take the following from the *Times* under date London, July 8th:—

"The Money Market became quite easy immediately after the turn of the half-year, and the rates for loans and discounts have fallen back to the low points at which they ruled during the greater part of last month. Gold has continued to arrive from abroad.

"The Bank Return shows a large addition to the coin and notes in circulation owing probably, in part, to the general election. The reserve is £16,384,000, a decrease of £1,189,000, and its proportion to liabilities has fallen 3⅞ to 40⅛ per cent. The market owes the Bank nearly £1,000,000, borrowed in anticipation of the dividends, and a large part of it still appears on the private deposits, the loans not having fallen due.

"In the Foreign Market the chief feature has been the decline in Argentine securities owing to the rise in the gold premium already mentioned, the loan of 1886 falling 4 and the Funding loan 2½. Brazilian bonds have been dull, but recovered to some extent to day, owing to the news that the revolt in Rio Grande do Sul is at an end.

"The Western of Buenos Ayres debentures lately sold by Messrs Baring for £960,000 were paid for to day and the money lodged in the Bank of England. This operation reduces the debt of the Baring estate to the Bank to about £5,500,000."

LA MAGNOLIA
INJURIOUS TEA DRINKING.
In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 15 minutes "draw," Indian Tea yields 17·73 of tannin, while from China comes only 7·93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.
GUARANTEED PURE.
Beware of gross, imitations of this well-known mark. Sold in tins of 1, 3, 6 and 12 lbs.

A GRANDIOSE AUCTION.
The best, most costly and notable lot of furniture as yet seen in the country; all from Dieust's, Paris. Inimitable regal Tapestry made to order by Gilbert Cuel (20 Rue des Capucines, Paris). The owner is going to the Interior and the furniture I now offer for sale must attract the attention of all intelligent people, owing to its absolutely exceptional quality. As he dropped in his easy chair,

COLOSAL REMATE DE TIERRAS

Sobre el Ferro-Carril del Rosario a Tucuman.

Linderas a las Estaciones Arrufo, Herzilia, Ceres, Selva y Malbran de dicho ferro-carril.

Tierras al alcance del mas pobre labrador.

Divididas en lotes desde 800 hectareas.

Sin Base Ninguna!

y condiciones ventajosas para el pago.

Area a venderse, 233,762 hectareas, o sean 100 leguas kilometricas mas o menos.

Se remataran en la Capital Federal

En nuestra casa Alsina 480 y 482

El Miercoles 10 de Agosto

a las 2 de la tarde

Remataremos por cuenta y orden de una Sociedad y por liquidacion total de la misma. 233,762 hectareas, 66 areas y 39 centiareas ubicadas en la Provincia de Santa Fe, donde como todo el mundo sabe, existen las mas vastas y ricas colonias de agricultores de la Republica y cuyos habitantes no conocen la crisis que ha abrumado al resto de ellas, debido a las esplendidas y abundantes cosechas que les han dado estas sin iguales tierras.

La ubicacion de estas queda al Oeste del gran ferro carril que arranca de la capital de la republica y cruza toda la rica y poblada zona de colonias terminando en la ciudad de Tucuman.

Comiénsan las tierras que se ofrecen en venta, en la Estacion Arrufo del ferro-carril mencionado y van hasta la Estacion Ceres de la cual distan 2 a 2 1/2 leguas estando el resto de ellas ubicadas sobre la Estacion Malbran extendiendose al Sud Oeste de la misma.

Todas estas tierras estan medidas, y midiendose el resto por el Agrimensor Publico, Señor Eduardo Elquera, y seran entregadas amojonadas a todos y cada uno de los compradores una vez escrituradas.

Copiamos de una carta de dicho Agrimensor, lo pertinente a la fraccion que acaba de medir, que dice:—

"Respecto de la clase de tierra, se puede considerar de tener igual calidad de tierra vejetal de 50 centimetros termino medio de tierra negra, terrenos muy altos, el agua potable obteniendose de 6 a 12 metros. No hay montes espesos, (esceptuando las tierras que estan al Norte sobre la Estacion Malbran donde los montes son muy abundantes y en partes impenetrables) sino isletas de árboles v. g. ñandubay, algarrobo, palo amarillo, algarrobo negro, etc. etc.

"El lote 85 es algo bajo terreno inferior.

"Los demas lotes son adecuados para la agricultura y se encuentran rodeados de colonias es mas pobladas y otras en formacion y cerca a las Estaciones Arrufo, Herzilia, Ceres, del gran ferro-carril de B. Aires a Tucuman.

"Las poblaciones que se advierten en el plano son pobladores que tienen animales de cria (vacuno, yeguarizo y ovino) en todas ellas hay jagueles para dar agua a las haciendas.

"La temperatura de esta region es la misma que reina en de donde dista unas 20 leguas."

Creemos que con estos datos nada tenemos que alegar sobre la bondad de estos terrenos que solo necesitan los brazos de hombres para hacerlos producir y con sus frutos sacar en un par de años doble de lo que se ha pagado por ellas.

La Provincia de Santa Fe que hace apenas 15 años, puede decirse, hera casi desierta, hoy es un damaro cruzado en todas direcciones por lineas ferreas pobladas por innumerables colonias que robosan de poblacion rica y activa; llenas de molinos a vapor, elevadores de granos, fabricas e industrias sin fin.

Antes del fin de este siglo, la Provincia de Santa Fe enviara al mundo de sus granos de todas clases como lo hacen actualmente los Estados Unidos del Norte.

Creemos inutil insistir en mayores detalles sobre lo que son y seran estas tierras; ahi estan sus hechos que dicen mas de lo que podriamos decir nosotros.

Llamaremos si la atencion de los compradores sobre las condiciones de la venta a saber:—

Sin base ni limitacion alguna por lo que den.

El pago se hara una cuarta parte al contado y el resto a 6, 9 y 12 meses de plazo con pagare hipotecario.

5 o/o al firmar el boleto a cuenta del precio y en caso de no escriturar dentro de los 30 dias de la venta perdera el comprador dicho 5 o/o y quedara resuelto el contrato a opcion de los vendedores quienes podran exijir la escrituracion si asi les conviene.

Planos y pormenores se obtendran en nuestra casa Alsina 480 y 482.
